PROFESSIONAL SUMMARY

.NET Backend Developer with hands-on experience developing RESTful Web APIs and enterprise web applications using C#, ASP.NET Core, ASP.NET Core MVC, Entity Framework Core, and SQL Server. Experienced in API integration, authentication and security implementation, application debugging, IIS deployment troubleshooting, and resolving Git/GitHub conflicts in real-world development environments. Strong foundation in OOP, LINQ, database design, and backend development, backed by a GPA of 3.98/4.00 and practical software development experience.

TECHNICAL SKILLS

Programming & Fundamentals: C#, SQL, OOP, LINQ
Backend: ASP.NET Core, ASP.NET Core Web API, ASP.NET MVC, Entity Framework Core, RESTful APIs
Database: SQL Server, Database Design, ERD/EERD, Mapping, Normalization
Tools: Git, GitHub, Postman, Swagger, Visual Studio, VS Code, SQL Server Management Studio (SSMS)
Additional Technologies: JavaScript, HTML, CSS

PROJECTS

Mahir – Graduation Project | A+

- Developed RESTful Web APIs using ASP.NET Core for a service marketplace connecting customers with skilled workers.
- Designed and implemented the database using Entity Framework Core Code First and SQL Server.
- Implemented backend features including reviews, assessment visits, wallet-based payments, and real-time notifications using SignalR.
- Tested and documented APIs using Swagger and collaborated with the team using Git/GitHub, including pull requests and conflict resolution.
- Participated in deploying the application to a remote ASP.NET hosting environment.

Bank Management System – EF Core | In Progress

- Designed a relational database model and developed C# entity classes using Entity Framework Core Code First based on the provided ER diagram.
- Configured entity relationships using Fluent API and implemented the database schema through EF Core Migrations.
- Implemented data seeding with initial test data for core entities.

Gym Management System – ASP.NET Core MVC | In Progress

- Developed backend functionality for the Home and Membership Plans modules using ASP.NET Core MVC.
- Implemented Plan Index and Details functionality using ASP.NET Core MVC, Entity Framework Core, and SQL Server.
- Integrated backend functionality with the provided frontend Razor Views.

EDUCATION

Bachelor of Business Information Systems
Capital University (formerly Helwan University) | 2022–2026
GPA: 3.98/4.00 | Latest Semester GPA: 4.00/4.00
St. Mary's College for Girls, Shubra | 2022

WORK EXPERIENCE

Leadership Program Trainee – IT & Software Track EAST – Engineering and Services Technology | Aug 2026 – Nov 2026

- Contributed to developing an internal enterprise web application using C#, ASP.NET Core MVC, and Web API, supporting business operations across multiple units.
- Integrated MVC application components with RESTful APIs and SQL Server, implementing backend functionality and database access through the API layer.
- Implemented and configured authentication and security measures, including Windows Authentication, cookie-based sign-in, and API key protection.
- Troubleshot IIS deployment and server configuration issues, investigated application errors and bugs, and worked through technical problems to improve application reliability.
- Resolved Git/GitHub merge conflicts and supported collaborative development and code integration.

HealthTech & .NET Summer Intern — EVA Pharma | July 2025

- Explored healthcare application concepts and Figma designs, gaining insight into how digital health solutions could address real-world healthcare needs.

Software Development Intern Egyptian German Automotive (EGA) | Sep 2024

- Studied SQL Server and relational database concepts through practical training and self-directed technical tasks.
- Designed Entity Relationship Diagrams (ERDs) and practiced database modeling, mapping, and normalization; developed SQL queries to retrieve data and solve database-related problems.

Mathematics Teaching Assistant Newton's Academy | Feb 2023 – Feb 2026

- Supported mathematics sessions, revision classes, and academic activities for preparatory and secondary students.
- Managed student records, attendance, and grade tracking using Microsoft Excel and the academy's student management system.

Summer Intern Al Ahli Bank of Kuwait (ABK) | Jul 2023

- Gained exposure to banking operations and customer service fundamentals.

Summer Intern Commercial International Bank (CIB) | Aug 2023

TECHNICAL TRAINING

Route Academy – Backend ASP.NET C# Track Completed | 2025–2026

C#, OOP, LINQ, SQL, Advanced SQL, Entity Framework Core, ASP.NET MVC, RESTful Web APIs.

STUDENT ACTIVITIES

- SCCI – Mobile Application Committee Member, Cairo University.
- Enactus Modern Academy – Multimedia Team Member.

LANGUAGES

Arabic (Native) | English (Fluent) | French (Intermediate)
